- Wheel Balancing Products
- Tire Repair Materials

**Rubber Inc. Introduces NEW 2011
TIA TPMS Flip Chart**

- Information on vehicles equipped with TPMS through model year 2011
- Laminated flip chart designed to provide accurate information on all aspects of TPMS applications, including relearn procedures
- Chart is divided into Domestic & Import vehicle sections
- Chart provides the following information:
The type of TPMS, whether direct or indirect.
Three columns of data that indicate when a system relearn is necessary, i.e. after change in air pressure, tire rotation or tire/sensor replacement.
A relearn summary – this includes a reference number that corresponds to the vehicle's procedure for initiating sensor relearn mode. The vehicle relearns are located in the back of the corresponding section, either domestic or import.
The sensor manufacturer.
OEM sensor part number, Schrader replacement sensor part and service pack numbers
And more.....

Rubber Inc. Announces New Dill Low Profile Bead Lever Tool

Designed by technicians to assist with hard to change low profile tires!

The easy grip ergonomically designed handle allows the user needed leverage for the toughest of sidewalls while remaining a safe distance from the face of the wheel.

FEATURES:

- Easy grip knurled handle
- It is 2" longer than a standard bead lever bar
- Angled handle design for better leverage

BENEFITS:

- Reduce strain on users hand and wrist
- The knurled handle gives the user better control of the tool
- Angled handle design reduces the chance of damaging expensive wheels

Part Number:

5500
